

The Janesville Daily Gazette.

VOLUME 25

Entered at the Post Office at Janesville Wis., as second-class matter.

Between Mr. Guitteau and Cox the trial is as humiliating and farcical as ever.

On Saturday next the Republican members of Congress will hold a caucus to nominate a Speaker and other officers of the House of Representatives.

Guiteau is managing his case so admirably in court that he has become the hero of the hour, and therefore the papers begin to call him Mr. Guiteau.

The State Board of Health of Indiana has decreed that all persons entering that State after January 1st will have to be vaccinated within sixty days after crossing the State line, and all the teachers and pupils of the public and private schools in the State will have to be vaccinated.

Another cashier has wrecked a bank this time in St. Johns, New Brunswick. He is short nearly a million dollars. It is not to be wondered at that some cashiers of large banks go into stealing. If they are dishonestly inclined or have a mania for speculation, they can afford to make a shortage of from one to two millions when they can get released on \$25,000 bail.

If President Arthur holds fast to his purpose of sending his message to Congress in manuscript form, the Sunday editions of the Chicago Times and Tribune will not be able to show their "enterprise" by publishing the message a day in advance of its delivery. Some papers can never show enterprise unless they have an opportunity to steal. The President proposes to stop this kind of enterprise.

Thiess shed tears when Judge Wentworth sentenced him to the penitentiary for seven years for stealing \$40,000. He wanted to get off better than that. By good behavior he can get out in five years under the rules, and as Thiess places no value on honor, the arrangement will pay him well from a financial point of view. He will be boarded at the expense of the State, and at the same time draw a bigger salary than a Congressman gets.

The last report is that it will take Thiess, the Kenosha forger, 105 years to pay his obligation to the State for the numerous offenses committed. When he comes out of Waupaca at the close of his present term, he will be re-arrested and again sent up. There are scores of counts hanging over him, and if the authorities choose they can keep him in prison during his lifetime. He has got by embezzlement and forgery, \$75,000.

As was stated in the Gazette yesterday, the State Board of control do not think there is any foundation for the report that there is any crookedness in the Industrial school for boys, or that Superintendent Sleep is guilty of punishing the inmates in an inhuman manner. The Sentinel, however, continues its howling in regard to the bad management of that institution and calls for an investigation. In order to arrest any suspicion of unjust or cruel punishment of the inmates, the State Board should give the complaints some attention and settle the question of incapacity and mismanagement on the part of Superintendent Sleep.

A few years ago Sunset Cox, the humorist and Congressman, wrote a book entitled, "Why We Laugh." The title of that book comes in play when we read of his return from Europe a few days ago, and the manner in which he was received in New York by his friends. A number of reception committees took a tug and went down the bay to welcome him, but found the vessel having on board the puissant Samuel had already reached her dock, and before the hilarious and toadying reception committees could reach the dock, the author of "Why We Laugh" was driven home without company. Not to be outdone, the committees got carriages, drove to Sammy's house, loaded him in one of them, re-drove to the tug, carried him about the harbor for an hour and then took him home. Cox has the smallest mental calibre of any prominent man in the United States, and that tendency should be pushed to that extent in his case shows how much Americans like to play the fool.

It is quite a sad commentary on large cities that they have never produced any really great men. Robert Collyer once made the statement that during his twenty years' residence in Chicago he had not known of even one man who had come prominently to the front in any profession who was born and bred in the city. He said all leading men in every calling—judges, lawyers, clergymen, editors, merchants, and so on, had been reared in the country, away from the follies, the vices and the enervating influences that are known to exist in all large towns. The New York Times, takes up the thought suggested by Mr. Collyer, and goes on to say: "Fashion reduces all young men and women to the same dull and uninteresting level. New York is now an old city. It has produced generations of men. How few of them have ever made their mark, here or elsewhere! It cannot be said that they go into other parts of the country and there develop the higher forms of manhood. They are never heard of except in the aggregated, concrete form of our fellow-citizens. How much of a man is due to qualities born in him, and how much to his early environment, no philosopher has been able to tell us; but it is impossible to conceive of a sagacious intellect like that of Lincoln, or a glorious mind like Webster's emerging from

the false glitter and noisy commotion of the city." It is also stated by the Times, and the statement is true to the letter, that not one American President, from first to last, was born in a city.

SETTLE OR DIE.

HUNSWELL, Kan., November 29.—The excitement at Caldwell still continues at fever heat. Threats are made, and will be carried out, that Danford must settle before to-morrow or die. At Hunswell, the cashier, Mr. Bowers, settled up with depositors with collaterals, real estate, etc., and paid up within \$3,000 of the indebtedness. His course has given satisfaction to everyone. The deposits at Caldwell were about \$50,000. As all collaterals, books, etc., were removed to Newton, it is impossible to tell how far they will go toward paying up. Danford has offered to pay part, but depositors refuse to settle. A heavy guard watches Smith and Danford day and night. Sheriff Thralls left for Wellington to-day. He says he is doing nothing against the mob, and it's with Danford to settle or die. The feeling is greatly aggravated by the fact that Danford assumed all the real estate to Colonel Hood, of Emporia, Saturday night; that he offered his guards \$1,000 each while being brought back to Caldwell, and the removal of the Caldwell property from the bank on Saturday night. Smith took him to Newton, although deposits were received up to the last minute. At meeting of the committee a determined man was sent after F. A. Turner, with instructions to bring him at all hazards.

AUGUSTA SCORCHED.

LITTLE ROCK, Ark., Nov. 29.—At 11 o'clock last night a fire broke out in Augusta, a town of 1,500 people, situated on the east bank of White river and the county seat of Woodruff county. There is no fire department, and the flames spread rapidly, despite the exertions of citizens. Nearly all the buildings were wood, and burned like tinder. In forty minutes from the time the fire started it was apparent that nothing could stay its progress, and that the town was doomed.

One block after another yielded to the advancing flames. A scene of intense excitement ensued. The streets were crowded with people, nearly all of whom

were in a state of indescribable panic, and most of whom were witnesses of the destruction of everything comprising their worldly possessions. A number of persons were injured by falling roofs and walls, and it is feared that many were fatally burned. Only three buildings of early as fully built and strong were left standing.

The loss on the cotton mill alone will reach \$50,000, several hundred bales being destroyed at the mill. The total loss is between \$250,000 and \$300,000. The insurance is very light.

PATTI'S BOSTON SEASON.

BOSTON, Nov. 29.—The sale of season tickets for the four Patti concerts began at noon to-day, and at 6 o'clock, when the box-office closed, \$11,200 had been taken in cash. A number of orders received by mail were also filled, bringing the actual sale to about \$13,000. This is the largest single day's sale of concert tickets ever known here.

RUMORED CHANGES.

MILWAUKEE, November 29.—It is reported here that Cuyler, of the Chicago and Northwestern road, will succeed Mr. Van Horne as general superintendent of the St. Paul road, and that Mr. Atkins, of the St. Paul road, will be called to the management of an Eastern railway.

A DENIAL.

CHICAGO, Nov. 29.—Cuyler, of the Northwestern road, was interviewed, and says he will not succeed Van Horne. He known nothing of Atkins' intentions.

EPISCOPALIANS.

WATERTOWN, Nov. 19.—The Milwaukee Episcopal convention convened here this evening in St. Paul's church. A number of the leading clergymen are present. At the close of the opening service Bishop Welles administered the rite of confirmation. The convention closes Thursday evening.

CARY'S DIAMONDS.

CINCINNATI, November 29.—A Lawreco special says Anna Louise Cary while dining at a railroad restaurant had her portmanteau stolen containing two rings, a pair of earrings and two pins with diamond sets. A colored waiter was arrested, but nothing was found on him. Afterwards the jewelry was

MILL BURNED.

OSHKOSH, Wis., Nov. 29.—Fire late this afternoon destroyed the shingle mill of G. C. Griffith & Co., situated near the river. The loss is estimated at \$10,000. The insurance is \$6,000—\$1,000 each in the American and the Union of Philadelphia and the Star of New York, and the balance in other companies. The cause of the fire is unknown, as the mill has not been in operation since the

burned. Ben went to the poor house of Marion County, and there he died a week ago, after living, as he said, on the fat of the land for forty years. Ben was very philosophical and took up his home among the paupers without a murmur. His boy died before him, and Ben slept with the youngster's picture hanging up at the head of his rude iron bedstead, and there it hung when the great gong sounded, which it hoped called him to a banquet that will never end.—*Chicago Inter-Ocean*.

Mr. Greenman, from committee on public

buildings, presented the following report:

To the Board of Supervisors of Rock County:

I have the honor to submit the following report

of the action of their committee on the proposed

of instructions embodied in a resolution ad-

opted at your special session in Janesville, in re-

quest of the election of an assessor and taxor on the

county farm.

On the 13th day of August last, a plan for this

building, prepared by O. E. Nowlan, was pre-

sented to the Board of Supervisors of Rock

County, and was referred to the State Secre-

tary of State, who invited to attend the meeting of the

committee.

After modifying this plan in accordance with some suggestions made by Mr. Wright, and his general approval, "speaking only for himself as a member of the Board of Charities," it was adopted.

Notice by advertisement in the Janesville Ga-

zette that proposal would be received until the

27th of that month was given. Three bids were

received, one from Mr. Nowlan, \$10,000; A. McDaniel, \$10,000; and the lowest

was awarded to Mr. O. E. Nowlan, and entered

into him in conformity with the published

terms of the contract, which was

now under roof, and will soon be ready for oc-

casion. Was November 1st, but the continu-

ance of the same, and the remaining all outdoor operations, has proved to Mr. Nowlan

in fulfilling the contract as to time. It is

proper to state that your committee, after care-

ful examination, and investigation, and no

difficulty have ordered certain amounts and

amounts to be paid to Mr. Nowlan, and

the amount was paid to him, and he is now

under roof, and will soon be ready for oc-

casion. The building is now in good condition,

and the chief items are two stoves on north

side of building, iron safe for the windows, a

cover for the windows, a door for the main

building, and the remaining in the form of

several partitions so as to make a dining room

for the patients. The exact cost we are not at

this time prepared to make, but which an

appropriate sum should be made.

The original motion was then adopted as amended.

Mr. Greenman, from committee on public

buildings, presented the following report:

To the Board of Supervisors of Rock County:

I have the honor to submit the following report

of the action of their committee on the proposed

of instructions embodied in a resolution ad-

opted at your special session in Janesville, in re-

quest of the election of an assessor and taxor on the

county farm.

Respectfully submitted,

A. H. BIRLDON,
C. C. KELLEY,
Committee.

Report adopted.

To the Board of Supervisors of Rock County:

—The Court street folk and friends meet in social converse at the home of H. F. Bliss in the First ward, this evening. All are invited and coffee and doughnuts will be served.

—The fellow giving his name as Henry Rydler, and claiming to be a member of the Soldiers' Home, Milwaukee, was arrested last night as a vagrant, but released this morning on his promise of going to Milwaukee at once.

—The Rock County Agricultural Society is to hold its annual meeting next Saturday afternoon at 1 o'clock, at the office of County Clerk Morgan, in the Court house. The election of officers and other important business is to be transacted.

—The cadets of the Janesville Guards met for drill last night, and numbered 42. This corps is increasing rapidly in numbers, and also in perfection of drill. The boys seem to be enthusiastic and the organization promises to be as permanent as it is prosperous.

—The "Christmas Market" has bought an elegant sword, which will be voted to the most popular officer in the Rifles or Guards, at the market, next week. Votes will sell at 10 cents each, and it will be allowable for any one to vote early and late, as well as often as desiring.

—Heimstreet's old store has been changed into a shooting gallery.

—Miss Sarah Donahue died at her home, in the Second ward, yesterday morning, of consumption. The funeral services will be held at St. Mary's Catholic church to-morrow morning at 10 o'clock.

—Last evening at Beloit, John K. Le Baron, editor and publisher of the Elgin Daily News, was married to Miss Mollie Bandy, daughter of Mr. William Bandy, of Beloit. Relatives and friends were present from Chicago, Elgin, Geneva, Batavia, and other places, and the affair was elegant in all its details.

—The circuit court has adjourned until Friday morning.

—Sheriff Mössenschmidt, of Jefferson county, is in the city to-day, looking after Louis Wilce, who is wanted there, when Rock county gets through with him.

—Robert W. Ellison is opening up a sales, exchange and boarding stable. He is to give especial attention to handling and boarding gentlemen's roadsters. He is a thorough horseman, and his new enterprise should prove a successful one.

—Dr. Burns, of this city, has prepared an interesting lecture on "Man," which he is delivering at various points. He contrasts in this lecture the phrenology of Garfield and that of the assassin, and illustrates by life-size portraits. He has another lecture on "The Human Brain," which he illustrates with many life-sized paintings, and by skulls, illustrating the causes of crime. A third lecture being given by him is on "Liver Complaints." These lectures conclude with phrenological examinations, to which the doctor has given much study.

—At the Seaside oyster market on the bridge has just been received a fresh supply of fish from Koshkonong. Other good things for the table are to be had there. Drop in and see what there is.

—The funeral services of the late Guy Carter were held yesterday afternoon, and were quite largely attended. Rev. Dr. Hodge officiated, and the services were of a tender, thoughtful and appropriate nature. The remains were taken to Oak Hill cemetery for interment.

—The fence of Louis Wilce is not quite ready for trial. The prisoner besides being charged with stealing a watch and some money, is said to have stolen two pool balls at Jefferson, and to have also borrowed a gun there, which with the pool balls, he pawned or sold here.

—E. B. Hainstreet has just received a large shipment of the "New Process Linseed Meal." This is pronounced to be the greatest flesh former, milk and butter producer in use, and commands the attention of all farmers, dairymen and stock-feeders. It may be fed with absolute safety in any quantity desired, and is said to be much richer in blood, bone and flesh producing elements than the ordinary Linseed Meal.

—Herman Krager was brought out of jail this afternoon and served as the bridegroom in a wedding at which Judge Patten officiated. There was no cake cut up, or other of the pleasant details of a social event, and even the two jars of sorghum still on the window-sill where they were left after being used in recent civil suit, were not disturbed. Mr. and Mrs. Krager left together, the unwilling Benedict promising to live with the girl whose confidence he had betrayed.

—The Round Table may not be dead, but if only sleeping, it is evidently a very sound slumber, for it is high time it was up and doing, if it intends to do any work this winter. The removal from the city of two or three of its leading members seems to have left the organization without any leadership, and there seems little prospect of anyone coming to the front who will assume the responsibility and labor of arranging a programme of study, and securing ex-writers and conversationalists.

—The sale of reserved seats for "Uncle Tom's Cabin" next Saturday evening, has opened at Prentice & Evanson's very well, and there is every indication of the old play drawing its usual crowd. Abercrombie's Boston Ideal company, which is to present it, ranks high, and has won many words of praise from the press in

various parts of the country. The Utica Herald says: "The company gave one of the very best presentations of Mrs. Stowe's famous work that has ever been seen in Utica. It is the best entertainment at popular prices that is now before the public."

—He had been reading some of the dire predictions concerning the horrible events which were to mark the record of 1881, and while pondering in a sort of terrible day-dream, stood by the show-window of his store looking out into the street. He saw a few sparks of fire falling, evidently from the clouds, like snowflakes. He rested his weight on a peg in his shoe to see if he was not dreaming, but still another shower of sparks fell. Then he began to wonder whether he hadn't better swear off, for he felt that he had 'em." He called his clerk to the window, and asked him what he saw. The clerk saw a few sparks falling. That settled it, for his clerk was a prohibitionist. He yelled to his clerk to lock up the store, the world was coming to an end, and he bounded out of the door, hoping to reach home in time to go up with his wife and babies, but as he glanced up for more sparks, he spied a timer on the roof, who was just starting his charcoal fire preparatory to mending the roof. The clerk's salary was raised fifty cents a week on condition that he would not say anything about it, and the merchant stepped behind a neighboring screen to get something to soothe his nerves.

HUMBUGGED AGAIN.

I saw so much said about the merits of Hop Bitters, and my wife, who was always doctoring, and never well, teased me so urgently to get her some I concluded to be humbugged again; and I am glad I did, for in less than two months' use of the Bitters my wife was cured, and she has remained so for eighteen months since. I like such humbugging.—H. T. St. Paul.
